Welcome to the Newsletter for Economics students, alumni and faculty staff. Twice a semester we inform you about news, articles, job opportunities and special events.

From our Programmes

Better Targeting the Job Market

As with the autumn semester 2019 the new MEcon and MiQE/F curricula will start. They offer one integrated design of classical econometrics with new methods of machine learning and big data analytics.

In MEcon five specialization areas target different personal interests and job market profiles: Public Policy, Global Economy, Managerial Economics, Financial Economics, Digitization and Data Handling. Read here more about the new curricula and specialisation areas.

To be informed about all initiatives of the economics department, also see our Economics website.
From our Students and Alumni

Central Banking in Action

Sindre Midttun is a MEcon student from Norway with a Bachelor's degree in Economics from Oslo University. With three colleagues, he just won the prestigious Norwegian Central Bank Case Competition. How did they beat the competition? How does studying MEcon differ from studying Economics in Oslo? What are the highlights of the MEcon experience? Will the future career be in public policy, management or in science? Read more.

Where are they now?

Endowed with an internationally competitive degree, our graduates start rewarding careers to take responsibility in science, policy and business.

Vera Trautwein, MiQE/F 2016

Brigitte Tschudi, MEcon 2018
Wissenschaftliche Praktikantin, Dienst für Politische Planung und Controlling der Staatskanzlei des Kantons St.Gallen
