- All guest students are automatically registered for decentral examinations which take place during or by the end of the lecture period (before 24 December 2022).
  - Approach the lecturer during the first class to find a date for the decentral exam
  - Do not sign up for courses that coincide to avoid having several exams at the same time!

  - Central exam dates may overlap although the courses don’t.
  - Enrolling for central examinations is binding and cannot be modified.
  - No individual examination and no alternative date is possible.

If the examination is specified as central in the course information sheet, guest students are automatically registered for the decentral guest examination taking place within the lecture period. Exception regarding Mid-Term examination: all guest students are automatically registered for the central Mid-Term examination which takes place during the lecture period.

Please note:

The notification of grades and Academic Record will include only the results of the examinations for which you were officially registered.
