# Conversation Courses

## What are conversation courses?

Conversation courses are an optional offer of the University of St. Gallen, which ideally complements the regular language courses.

The basic idea is that you can learn and deepen a foreign language through conversations with native speakers. The aim is to overcome the language barrier in a relaxed atmosphere with friendly colleagues and exchange students.

The offer is optional. With your registration, you commit yourself to taking advantage of it. If the courses are poorly attended, they will not be continued. For reasons of fairness, you should only register if you intend to attend on a regular basis.

## Highlights

- ✓ Free offer for members of HSG and other universities
- ✓ You can attend several conversation courses if you have the time capacity.
- ✓ Taught by students in their native language
- ✓ There is no need for individual preparation and no additional effort outside the actual lessons.

Courses are offered on a semester-by-semester basis. Usually the following languages can be offered:

- Arabic
- Chinese
- English
- French
- German
- Italian
- Japanese
- Russian
- Spanish
- Swiss German

Please find the holistic overview of all courses offered on our website.
